DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the time period February 26 to March 11, will be **Tuesday, February 15, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

A kick-off preview party for the Second Annual Founders Day Celebration will be held Friday, March 4, at 3:30 p.m. in the Millberry Union gym as a "thank you" to all the staff on campus.

According to David Bracker, community health manager, Office of Public Service Programs, who is party chair, a committee of staff employees—including representatives from the Black Caucus, United Filipino Employee Association, Latin American Campus Association, Staff Employee Council and campus satellite locations—is planning an afternoon of entertainment provided by several faculty members. Free refreshments also will be served.

Other members of the party planning committee are Carol Bourassa, secretary; Allen Balderson and Andy Evangelista, News and Public Information Services; Valerie Chin, VAMC; Greg Christian, Black Caucus; Amanda Jardiolin, United Filipino Employee Association; Larry Heinemann, LPPI; Katie Menees, Chancellor's Office; Joe Morales, SEC; Janet Perino, SFGH; Betty Rojas, Latin American Campus Association; John Morehead, AIS; and Ro Wang, Materiel Management.

Founders Day events will be highlighted by the inauguration of UCSF's Fifth Chancellor—Julius R. Krevans, MD—with UC President David Saxon as host.

The formal ceremony will be held Saturday at 2 p.m. in Cole Hall, preceded by the colorful, traditional academic robing ceremony and procession across Parnassus Avenue. The inaugural address will be delivered by Steven Muller, PhD, president of The John Hopkins University. Other speakers representing all segments of the campus will be William K. Coblentz, chair of the UCSF Board of Overseers and a former UC Regent; John A. Starkweather, PhD, on behalf of the UCSF faculty; Carol M. Copperud, representing staff employees; and Marjorie Bogaert for the UCSF student body.

Following the inauguration a reception to which the entire campus is invited will be hosted by President Saxon in the mezzanine of the School of Nursing building.

Other Founders Day activities will include morning scientific presentations from the four schools and tours and demonstrations of programs and activities conducted by graduate students and faculty. In addition, a gourmet lunch will be held in the Millberry Union gym.

A multi-media slide presentation called "UCSF Today" will make its premiere on Founders Day. The presentation, produced by Janet Norton, assistant director, News

The First Henry D. Moon Memorial Lecture will be held on Wednesday, February 23 in HSW 302 at 3:30 p.m. Marilyn G. Farquhar, PhD, professor of Cell Biology and Pathology at Yale University School of Medicine, will deliver the lecture "Functional Organization of the Glomerular Basement Membrane."

The lectureship is sponsored by the Department of Pathology and honors Henry D. Moon, MD, professor and chair of the department from 1956 to the time of his death in 1974. A '40 graduate of the UCSF School of Medicine, Moon received his AB in 1935 and his MA in Anatomy in 1937 from UC-Berkeley.

Farquhar has made major contributions in cell biology on the structure and function of the anterior pituitary gland, and in the role of the glomerulus in filtration. She received her PhD in Experimental Pathology from UC-Berkeley in 1955 while working in UCSF's Department of Pathology. From 1953 to 1958 she was a research pathologist, spent the next four years at Rockefeller Institute, then returned to UCSF and eventually became professor of Pathology. She left UCSF in 1971.

and Public Information Services, will create a visual impression of the campus from various individual perspectives. There also will be screenings of TV news clips about the campus.

The full program for the inauguration and all the Founders Day events will be printed in the next issue of *Today & Tomorrow*. Reservations are needed for the inauguration program and the $7 per person gourmet lunch. For further information call x2401.

In order to cooperate with the hiring freeze imposed by the Governor, the following procedure should be used for hiring of University employees:

- Requests for the filling of all state-funded positions (19900 funds), after approval by the appropriate dean, vice chancellor or hospital director, must be forwarded to the Chancellor's Office for review. A covering memo explaining why the position is essential to the preservation of the quality of the academic programs or essential support services must be included.

Vacant positions that are approved for hiring will be forwarded by the Chancellor's Office to Personnel.

- Requests that do not require a requisition to the Chancellor's Office include: 1) teaching positions, including temporary positions and teaching assistants in departments of instruction and research; 2) positions responsible for the care of individuals in 24-hour care facilities (hospitals and clinics); 3) positions funded from non-State sources.

Approved recruitment will continue to be consistent with Affirmative Action goals and objectives.

The UCSF Police Department reminds all faculty, staff and students that unless you have a valid A or C permit parking is prohibited in the parking lot behind the old UC Hospital.

The Police Department urges all individuals to please cooperate because parking violators will be ticketed weekdays, evenings and weekends.

The campus community is invited to attend a reception honoring David Johnson, supervisor of Affirmative Action Outreach since 1980, on Friday, February 25 in the Millberry Union Faculty Club beginning at 3:30 p.m. Johnson is retiring from the university as of March 1.

Johnson, who has been a member of the Personnel Department for some 15 years, has coordinated several campus programs to help minorities and women advance their careers at UCSF. Johnson also is the initiator of the Chancellor's Summer Youth Program, which has employed more than 1000 disadvantaged youths during the summer months since its inception in 1969.

Johnson, one of the principal founders of the UCSF Black Caucus in 1968, was awarded the UCSF Public Service Award in 1974 for his community work in the Haight Ashbury and his work within the caucus.

For further information on the reception call x4032.

The Gladstone Foundation Laboratories for Cardiovascular Disease will hold its Fourth Annual Scientific Symposium on Tuesday, March 1, in Cole Hall from 10:30 a.m. to 12:30 p.m.

Entitled "Concepts from Cellular and Molecular Biology: Structure and Regulation of Specific Eukaryotic Genes," the symposium will feature three lecturers:

- Richard Axel, MD, professor of Biochemistry and Pathology, Columbia University Institute of Cancer Research and a Gladstone visiting scientist, "Genes Modulating Behavior in *Aplysia*";
- John D. Baxter, MD, UCSF professor of Medicine, Biochemistry and Biophysics and chair of Endocrinology, "Structure and Function of Growth Hormone Genes";
- John M. Taylor, PhD, UCSF associate professor of Physiology and director of the Gladstone Laboratories Molecular Biology Unit, "Regulation of Apolipoprotein Gene Expression."

The symposium is free and open to the campus community. For further information call 826-7500.

George Pennebaker, PharmD, has been elected president of the Alumni Association of UCSF, effective May 4. He replaces Charles T. Carman, MD, dean of University Relations and professor of Medicine.

As part of his two-year term, Pennebaker will serve as secretary of the Alumni Association of UC for one year and will assume presidency in 1984. Because of this new position as president of AAUC, he also will serve as UC Alumni Regent during the 1984-85 academic year. He will be the first president of the AAUCSF to serve as Alumni Regent.

Pennebaker is founder of Apothetech, Inc., a supplier of computers to pharmacies across the country. He has served as president since its inception in 1975 and vice president since 1981.

A 1961 graduate of the UCSF School of Pharmacy, Pennebaker has served on several state boards. He was pharmaceutical program coordinator of the State MediCal Program, where he played a major role in the development of its policies and procedures and also served as director of Professional Services of the California Pharmacists Association from 1972 to 1974.

The Personnel Department will accept 1983 Service Award Requests throughout the year. Staff Service Awards are presented annually to those employees who have retired that year or who have completed 25 years of service to UCSF.

Departments should complete form 71455-183 for each eligible employee. The forms, which are available through the Storehouse, should be submitted to the Personnel Department at least two months prior to the employee's eligibility or retirement date.

In addition, all departments are reminded to review their Service Award requests for 1982 to make sure no eligible employee was omitted. For further information contact the Personnel assistant for your department.

A symposium on gastroenterology will be held Thursday to Sunday, March 10 to 13 at the Ahwahnee Hotel in Yosemite National Park.

Sponsored by Extended Programs in Medical Education, Central San Joaquin Valley, Fresno Branch, and organized by the Central California Committee for Gastroenterology, the program is designed to provide the internist and family practitioner with an intensive review of gastrointestinal disorders, their diagnosis and current therapy. Practical management information will be emphasized. Topics will include gastrointestinal pain and bleeding, esophagus and peptic diseases, and recent issues in cancer.

For further information contact Sharon Balestra, (209) 224-3235.

A grant of $150,000 has been awarded to the Department of Obstetrics/Gynecology and Reproductive Sciences from the Fred Gellert Foundation to assist in the renovation and construction of new facilities for the Reproductive Genetics Unit (RGU). The grant is the first major commitment to the unit from private sources.

The RGU, part of the Department of Ob/Gyn since 1971, is internationally recognized for its pioneering work in fetal surgery and in prenatal diagnostic services. The UCSF program has been a leader in the development of sonography, fetoscopy, new techniques in DNA chemistry and amniocentesis. UCSF has performed more amniocenteses than any other facility in the country, having served approximately 10,000 families since its inception.

The new facility is needed to consolidate the unit, which is operating currently from five different locations on campus, and to create more space for expanded research, according to Mitchell Golbus, MD, director of the unit and professor of Ob/Gyn and Pediatrics. Currently the unit serves as the regional center for the western US in testing for sickle cell anemia *in utero*.

The School of Nursing is sponsoring Career Day on Wednesday, February 16 in the mezzanine and lobby of the School of Nursing Building from 11 a.m. to 3 p.m. Some 35 hospitals from Northern California will be setting up tables to pass out information on nursing employment opportunities available at their institutions. Representatives will be on hand to discuss individual employment needs. For further information contact School of Nursing Student Affairs at x1435.

The University Research Expeditions Program (UREP) at UC-Berkeley is offering some 22 spring and summer expeditions for UC employees and the general public to travel and assist in important scientific field research.

This program specializes in matching interested amateurs from the general public with UC researchers in need of teams to carry out field work in the US and abroad on field projects in disciplines ranging from archaeology to zoology.

No special academic or field experience is necessary for most UREP projects. Participants usually join an expedition for two to four weeks, providing vital field assistance by learning to excavate, map, conduct oral history interviews, observe animal behavior and share in a full range of other field activities. Each participant helps cover the cost of the research by making a tax-deductible contribution to the project which also covers food and lodging expenses.

For a complete catalog describing the expeditions contact: University Research Expeditions Programs (UREP), University of California, Desk NR, Berkeley, CA 94720, or call 642-6586.
